

Empowering Women Entrepreneurs through Digital Transformation: Women ICT Frontier Initiative (WIFI DX) Training of Trainers

8-10 April 2026, Tashkent [DRAFT]

Digital technologies have become indispensable tools for women entrepreneurs, leveling the playing field and opening up new opportunities. These technologies provide access to wider markets, enabling women to reach customers and partners far beyond their local communities. Online platforms and e-commerce solutions allow women entrepreneurs to showcase their products or services to a broader audience, often with lower overhead costs than traditional brick-and-mortar establishments. By harnessing the power of digital technologies, women entrepreneurs can overcome traditional obstacles, innovate in their fields, and contribute significantly to economic growth and diversity in the business landscape.

The Asian and Pacific Training Centre for ICT for Development – a regional institute of the Economic and Social Commission for Asia and the Pacific with a mandate on capacity building on digital technologies for sustainable development – launched the **Women ICT Frontier Initiative (WIFI)** in June 2016 to promote women entrepreneurship through digital skills development. It aims to strengthen the capacities of women entrepreneurs to utilize digital tools in support of their businesses, as well as the capacities of government leaders and policymakers to provide an enabling environment for ICT-empowered women entrepreneurs through gender-responsive ICT-enabled policies and programs.

Recognizing the emerging technology trends and challenges that women entrepreneurs face in the region, the Centre revamped the WIFI programme – now called WIFI DX – to offer new and practical courses that will support them in their digital transformation journey. WIFI DX cover topics such as: E-Commerce & Digital Marketing, Digitalization of Business Financial Management, Trust and Security, Business Continuity Planning, Data Analytics for Women Entrepreneurs.

This activity will be organized by the Asian and Pacific Training Centre for ICT for Development (APCICT/ESCAP) in collaboration with the Ministry of Digital Technologies of the Republic of Uzbekistan and Women in Tech Uzbekistan, who will serve as co-organizers. The partnership aims to strengthen local capacities and expand opportunities for women entrepreneurs to leverage digital technologies for business growth and innovation.

ABOUT THE PROGRAMME

The three-day training will cover the following courses:

- **Foundation Course on Women Empowerment through Business Innovation and Digital Transformation.** This course serves as the cornerstone of the programme and aims to motivate women entrepreneurs to embark on a transformative journey.
- **E-Commerce and Digital Marketing.** This course equips women entrepreneurs with the practical skills needed to establish online presence and effectively market their products or services in the digital space.
- **Data Analytics for Women Entrepreneurs.** This course equips entrepreneurs with essential data analytics skills to improve decision-making and business outcomes. It covers key concepts such as descriptive, diagnostic, predictive, and prescriptive analytics, while emphasizing ethical data use and customer protection. Participants will learn to apply data insights to enhance customer development, marketing strategies, and overall business performance. Participants will learn how to collect, analyze, and interpret data to gain insights, improve operations and boost business performance.
- **AI for Women Entrepreneurs:** This course introduces how new technologies are shaping the future of business. It explores how AI agents, chatbots, and automation can be implemented across sales, marketing, lead nurturing, and ecommerce—along with key FAQs, legal, and ethical risks to watch for.

PARTICIPANTS

The training will be attended by potential trainers and women entrepreneurs as well as representatives of women's associations and stakeholders on women's entrepreneurship.

DRAFT PROGRAMME

Day 1	
Time	Description
09:30 – 10:00	Registration <i>Morning Coffee</i>
