FLAGSHIP PROGRAMME 3

Primer Series on ICTD for Youth

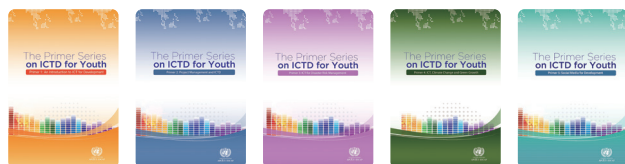

Asian and Pacific Training Centre for Information
and Communication Technology for Development

Primer Series on ICTD for Youth

Asian and Pacific Training Centre for Information and Communication Technology for Development

MODULE

- Primer Series 1.** An Introduction to ICT for Development
- Primer Series 2.** Project Management and ICTD
- Primer Series 3.** ICT for Disaster Risk Management
- Primer Series 4.** ICT, Climate Change, and Green Growth
- Primer Series 5.** Social Media for Development

“Turning Today’s Youth into Tomorrow’s Leaders” (TTYTL) aims to cultivate students and youth to become future leaders who are equipped with the knowledge and skills on using ICT for sustainable development. Under this programme, the Primer Series on ICTD for Youth (Primer Series) was launched in February 2012 to provide learning resources that institutions of higher education in Asia and the Pacific can use, thereby expanding the coverage of ICTD education in university curricula. The Primer Series is now utilized over a hundred universities and colleges across the region.

Available in 7 languages:

Azeri, English, Indonesian, Mongolian, Persian, Russian, Tajik

TARGET AUDIENCE

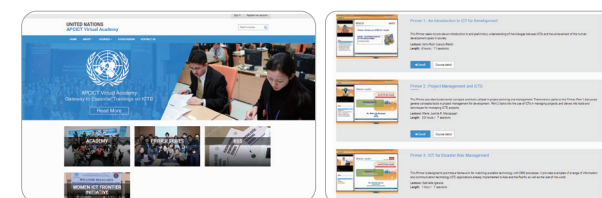

Faculty members at institutions of higher education.

College and university students from both technical and non-technical backgrounds.

Educational administrators and curriculum developers at ministries of education.

APCICT VIRTUAL ACADEMY

Online distance learning platform :

<http://e-learning.unapcict.org>

Free access to all Primer Modules, accompanied by video lectures, presentation slides, and self-evaluation quizzes.

USB versions available for users in limited internet access.

ENGAGED LEARNING

Engaged Learning is APCICT’s new initiative to strengthen ICTD education by linking classroom learning with community development through ICT-based innovation.

- **Toolkit for Faculty:** Using ICT for Community Development
- **Guidebook for Students:** Using ICT for Community Development
